Part 4: Listening

Task: Listen to your teacher read the passage below, then retell the story as accurately as possible.

Time: 5 minutes

Hi I'm Craig. I work for XTC at the Shinjuku office. The Shinjuku office is the tallest building in Shinjuku and it is where we do all of our testing.

I have a problem at work and I need some help. Today is Saturday so all of the managers are at home and most of the people that work in my department are off too. None of the people I want to talk to are here today.

Tom and I need to finish an important project, but neither of us knows what to do. It's really complicated. Dan normally helps us, but he doesn't work here anymore. He left last month. I think it was a bad decision because he's still looking for a new job.

Part 5: Role-play

Task: Role-play the situation below:

Time: 5 minutes

Partner 1: (Customer) Go shopping. You are looking for a new phone. Screen size, speed, price, features and camera are all important to you. You are thinking of buying a Uphone 6.

- State what you want.
- Compare different phones.
- Find the best one.
- Buy the phone.

Partner 2: (Staff) You are a salesperson at a local electronics shop. You don't sell the Uphone 6 anymore.

- Show the customer some other phones.
- Help them make a decision.
- Compare different phones.
- Sell them the phone.
